1. News section has been populated
2. Search bar has been made functional
3. beneficiary section has been added in the home page

currently I am working on the database to input any query that will be made in the faq page. After that I will be working on a visitor counter on the website.

I ask for some input on the following topics,

1. what questions should be in the faq page

My Response:

- How BeLISAC is going to address the gender discrimination in the LDCs and MICs?
- How BeLISAC stands different from fDLuDCf project? is it a continuation of fDLuDCf project?
- How BeLISAC is going to be successful if the pandemic is addressed?
- What is the sustainability of BeLISAC?
- How the Interns will be selected? How should one apply for the Internship?
- What qualifications/experience is needed to be selected as an Intern?
- Under BeLISAC Servers will be procured only for Bangladesh, Bhutan, Nepal and Sri Lanka. How the requirements of Cambodia and Laos will be addressed?
- How the Server Procurement will be done?

1. what can i add in the events page

My Response:

- Awarding of the Project by TEIN*CC
- Signing of the Agreement of BeLISAC Project
- Joining of the Female Engineers
- Floating of the RFQs for the Servers
- Selection of BeLISAC portal address and Launching of the Website
- Selection of BeLISAC Logo
- Signing of Multi-party Agreement

1. Is there any other term I should use other than 'benefactors' and 'beneficiary countries'

My Response:

- Since BdREN, LEARN and NREN are also contributing, they should be included as Benefactors too.

1. please give some review on the color palette of the website

My Response:

- Not outstanding but good to start with. [Asi@Connect](#), EU, and NORDUnet the Chief Financier of the project should be more highlighted.
